

Student Engagement

CO-TEACH PLAY # 7

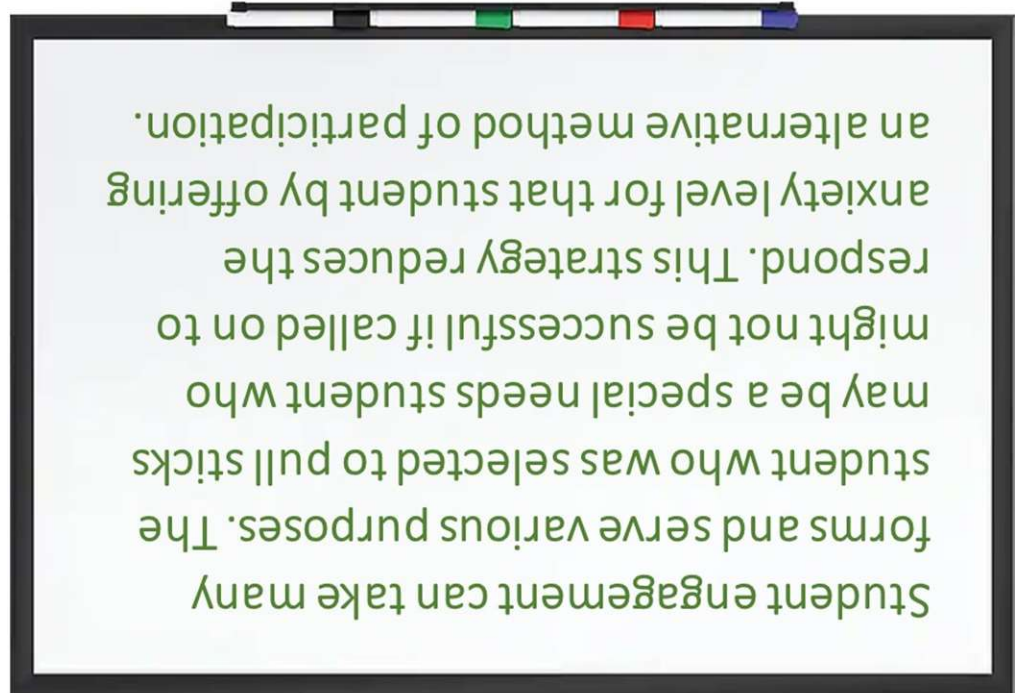

Partners are leading a verbal question and answer session. To structure student participation, one partner suggests pulling sticks with students' names from a can. The other partner sends a student to front of room to pull the sticks and read the names. Teachers direct the student verbally (if needed) as they circulate, assist, and conduct the lesson.

ACTION: Provide students with non- instructional leadership roles.

Some coordination and/or advanced planning may be required.
